Course #WAUN09272021

Our Quality CNA Training course trains individuals in the art of caregiving, focusing on the five principles of care that should inform every decision a caregiver makes: safety, privacy, dignity, independence, and communication. Our comprehensive training approach includes a variety of learning styles to help every student master their skills. In addition to in-class activities, each student has the opportunity to receive one-on-one instruction to help master their skills. Students are required to participate as both patient and caregiver during hands-on skills practice.

Independent Google Classroom: Assignments are due by the dates outlined below. All remaining materials must be completed by close of business on 10/26/2021. Your online instructor will explain this in detail during your first zoom meeting on 09/27/2021 at 4 pm. Zoom meetings are typically 45 - 60 minutes. **Course Length:** 75 hrs
